## MQ3-35

Self-priming multistage centrifugal pumps

Product photo could vary from the actual product

Conditions of Service	Pump Data	Motor Data
Flow: _____	Maximum operating pressure: 109 psi	Rated voltage: 220-240 V
Head: _____	Liquid temperature range: 32 .. 95 °F	Main frequency: 60 Hz
Efficiency: _____	Maximum ambient temperature: 113 °F	Enclosure class: IP54
Liquid: _____	Approvals: CSACUS	Insulation class: B
Temperature: _____	Shaft seal: BVBP	
NPSH required: _____	Pipe connection: NPT 1	
Viscosity: _____	Product number: 96860201	
Specific Gravity: _____		

**Materials:**

Pump housing: POM + 25% glass fiber  
 Impeller: PPO + 20% glass fiber-PTFE  
 Material code: A

Position	Count	Description
	1	<p><b>MQ3-35 A-B-A-BVBP</b></p>  <p style="text-align: center;">Product photo could vary from the actual product</p> <p>Product No.: <a href="#">96860201</a></p> <p><b>Complete system</b>                      The MQ is a complete, all-in-one unit, incorporating pump, motor, diaphragm tank, pressure and flow sensor, controller and non-return valve.                      The controller ensures that the pump starts automatically when water is consumed and stops automatically when consumption ceases. In addition, the controller protects the pump in case of faults.</p> <p><b>Installation</b>                      Due to its compact design, the pump does not take up much space and is easy to install. No space around the pump is required.</p> <p><b>Simple operation</b>                      The pump features a user-friendly control panel with ON/OFF button and indicator lights to show the operational state of the pump.</p> <p><b>Self-priming pump</b>                      As it is self-priming, the MQ is able to pump water from a level below the pump. Provided it is filled with water, the pump is able to lift water from a depth of 26 ft in less than 5 minutes. This facilitates installation and start-up of the pump and provides more reliable water supply in installations where there is a risk of dry running or leakages in suction hose or pipes.</p> <p><b>Built-in protective functions</b>                      If exposed to dry running or excessive temperature, for example in case of seizure or overload, the pump will stop automatically, thus preventing a motor burnout.</p> <p><b>Automatic reset</b>                      The pump features an automatic reset function. In case of dry running or similar alarm, the pump will stop. Restarting will be attempted every 30 minutes for a period of 24 hours. The reset function can be deactivated.</p> <p><b>Low noise level</b>                      Thanks to its hydraulic design and internal cooling, the pump is extremely low-noise, which makes it suitable for indoor and outdoor use.</p> <p><b>Pressure tank</b>                      The built-in pressure tank reduces the number of starts and stops in case of leakages in the pipe system, causing less wear on the pump.</p> <p><b>Maintenance</b>                      No maintenance of the pump is required.</p>

Description	Value
Product name:	MQ3-35 A-B-A-BVBP
Product No.:	96860201
EAN:	5700312084211
Price:	On request

Technical:	
Rated flow:	13.2 US gpm
Rated head:	72.2 ft
Head max:	115 ft
Shaft seal:	BVBP
Approvals on nameplate:	CSACUS
Curve tolerance:	ISO 9906:1999 Annex A
Pump version:	A
Model:	B

Materials:	
Pump housing:	POM + 25% glass fiber
Impeller:	PPO + 20% glass fiber-PTFE
Material code:	A

Installation:	
Range of ambient temperature:	32 .. 113 °F
Maximum operating pressure:	109 psi
Connect code:	B
Pipe connection:	NPT 1

Liquid:	
Liquid temperature range:	32 .. 95 °F

Electrical data:	
Power input - P1:	900 W
Main frequency:	60 Hz
Rated voltage:	1 x 220-240 V
Rated current:	4 A
Enclosure class (IEC 34-5):	IP54
Insulation class (IEC 85):	B
Length of cable:	6.56 ft
Type of cable plug:	NEMA

Controls:	
Switch:	on/off switch included

Others:	
Net weight:	28.7 lb
Gross weight:	34.2 lb
Shipping volume:	1.94 ft³
Sales region:	Namreg
